

## INTRODUCING A BETTER WAY TO PAY

eNett International's Virtual Account Numbers (VANs) enable easier payments to suppliers globally. Secure, cost-effective and available to IATA and non-IATA travel companies, vNett creates a unique Virtual Account Number for each booking to ensure supplier payments are processed quickly and safely.

## HOW VANs WORK

## KEY BENEFITS

### ENHANCED REVENUE

- Access more content: book low-cost-carriers and other suppliers at dynamic prices previously not accessible
- Be up and running within days: downloadable tool, integrated with the GDS, other booking systems and supplier websites without the laborious credit approval processes
- Generate more income: earn revenue from your VANs on every payment

### REDUCED RISK

- Secure funds: unique Virtual Account Numbers eliminate credit risk and misuse, guaranteeing all payments
- Reduce FX exposure: increase certainty around foreign currency transactions
- Improve control: access and credit limits controlled by agent with PCI compliant technology

### IMPROVED COST CONTROL

- Improve efficiency: one global platform for use across agency networks and improved handling times through seamless integration with the GDS, other booking systems and supplier websites
- Reduce staff costs: reduced Accounts Payable time and effort through automated, real-time reconciliation

### ENRICHED DATA

- Analyse supplier data: access and analyse real-time data on supplier activity
- 100% data match: seamless reconciliation of invoices to booking data (air and non-air)
